

The compliance operating system for modern healthcare.

Calyx replaces fragmented vendors with one continuously running program: a senior compliance officer, supercharged by AI.

EVERY PROGRAM

- Built on the OIG 7 Elements
- Expert approval on every decision
- No PHI to any model without a BAA
- Continuously run, always audit-ready

THE FLAGSHIP · CONTINUOUS COMPLIANCE SUBSCRIPTION

Seven pillars. Choose the ones you need.

Run the full always-on program or select the pillars that close your gaps, and add more as you scale.

1

Corporate Compliance Policies & Governance

OIG-aligned structure, roles, and oversight.

2

HIPAA & Security

Privacy, confidentiality, and security frameworks.

3

Chart Audits

CPC-certified auditors with AI-supported documentation and coding audits.

4

Exclusion Screening

Monthly federal and state sanction checks.

5

Staff Training

Role-based learning paths and culture.

6

Compliance Hotline

Confidential intake and reporting.

7

OSHA & Safety

Workplace safety and incident readiness.

Start with one.

Scale to all seven, always on. One program that grows with you.

NEED A SINGLE GAP CLOSED

Episodic engagements.

Audit Defense

OIG, CMS, RAC, MAC, or SIU / commercial payer response, strategy, and representation.

Chart Audit

Targeted coding and documentation review, standalone.

Compliance Due Diligence

Buy-side and sell-side review that informs deal structure.

Gap Assessment

Program review with a prioritized remediation roadmap.

COMPLIANCE AS A PROFIT CENTER

Done right, compliance pays for itself.

Recover revenue

Chart audits surface underpayments and correct charge-capture gaps at the source.

Protect revenue

Clean, current documentation keeps you ready for any audit and in a defensible position when a payer comes looking.

Protect enterprise value

An active, up-to-date compliance program is always ready for any diligence exercise, whether you raise, sell, or acquire.

Built for **physician groups & MSOs**, **PE-backed platforms**, and **behavioral & home health**.

See your gaps before an auditor does.

Start with a free assessment. We find the gap, quantify the upside and the risk, and show you what continuous looks like.
